

The Ring Leader

Logan Pritchett Ring 29

Little Rock, Arkansas

The April meeting of Ring 29 will be both magical and educational. There will be a special lecture by our very own Mary Ann Campbell. Her lecture on "magic with a message" contains a framework of magical ideas that can be adapted to a variety of instructional and educational formats.

We have had some excellent lectures that have dealt with close-up items and particularly coins. This month's meeting will feature a workshop on coins. Bring your favorite coin tricks and teach your fellow magi some new moves. If you are having any problems with a coin trick, get some help with it at this meeting.

Jon Bucher is putting together a "Linking Ring Parade" from magic supplied by Arkansas magicians. He needs input from many magicians, so if you have an original routine or a novel handling of a standard effect please contact Jon. Let's show the I.B.M. that there is a lot of good magic in Arkansas.
