1917 N. Grant Street
Little Rock, Arkansas 72207

Dear Jim,

Per our telephone conversation this date, I am forwarding some information on myself, and the Lecture I propose Monday, 12 April.

My Lecture is titled "Easy Stuff", and is aimed at all ranges of skill in the Magic Community. The slights which I use are easy to learn, yet effective in the presentation of an effect. I make extensive use of the "Zarrow Shuffle", Double lifts, multiple shifts, and Duplicate cards in structuring a routine that will please and baffle laymen.

In my past twenty years as a touring pro, I have yet to have a local Magician call me to perform at His party, or to offer me work other than at conventions, or to fill a booking that he could not take. Because of this, I fit my style and effects for the layman - the guy and gal that signs the check.

The routines and explanations that I will do is a distillation of selected effects that has gotten me work in 57 Foreign Countries, taken me around the World eleven times, and given me the opportunity to visit all 50 States. This is a teaching lecture, not a "Dealer Demo" I sell only my lecture notes, a brass "Chop Cup" we manufacture, and two packaged card effects.

Your members that are familiar with John Mendoza's work will recognize the style, as well as the influence of Walt Cummins, Jon Racherbaumer, and Marlo. I have taken some of their effective, but simple effects, and combined them into a set to entertain a lay audience. If your membership is looking for effects to sit around in gab sessions and impress or fool other Magicians, then this lecture is not for you -- but if you want proven effects that completely baffle a lay audience, and firmly establish you as a "Card Mechanic" in the Layman's mind, then I believe I can offer you something.

Cost of the lecture is \$125.00. I only charge the token amount because I do not stay on the "Lecture Circuit" as a sole means of support. I will be in your area performing under various contracts, and do the lectures as a way to hopefully repay Magic for the kindness it has given me over the years.

I am looking forward to being able to spend time with your group. Thank you for your consideration,

Magically,

Dr. Bob
